

Library/Technology Teacher Job Opening

Landenberg Christian Academy is seeking a part-time technology/library teacher for students in K-6th Grade. The goal of our Technology program is to equip students to use computers, the internet, and other technology to further his/her educational journey and to be able to responsibly and effectively utilize the technological tools available to them. Our program seeks to expose students to a wide variety of computer based programs and experiences. LCA also has a small, but growing Library which gives students access to a wider range and variety of books to enhance their motivation and love for reading.

Qualified applicants should possess teaching experience and a broad working knowledge of computers. Applicant should be comfortable learning and using web based programs for teaching a variety of subjects from coding to web and graphic design, as well as have a working knowledge about internet safety. Experience and familiarity with Google Drive, Google Docs, Slides and Apps is preferred. Although the main focus of this position is the teaching technology, this teacher would provide oversight of the LCA library.

LCA is looking for a technology/library teacher who has a love for elementary-aged children, has a strong commitment to Jesus Christ, is flexible and creative, and has a desire to make learning about computers and the internet fun and engaging.
